PTCB now requires CPhTs to earn only pharmacy technician-specific ("T-specific") credit to qualify for recertification. As of January 1, 2015, ALL CPE credit earned must be T-specific. In addition, PTCB reduced the number of allowable CPE hours earned through in-service training from 10 to 5. Please advise all pharmacy technicians at your site of this change.

**FACULTY DISCLOSURE:** It is the policy of the Illinois Council of Health-System Pharmacists (ICHP) to ensure balance, independence, objectivity, and scientific rigor in all of its education programs. In accordance with this policy, faculty must disclose to the participants any significant relationships with commercial companies whose products or devices may be mentioned in faculty presentations, or with the commercial supporter of these continuing pharmacy education programs. These disclosures will be available at the program.
