

# Overview of IVIG

Presented by: Virginia Kraus RN MSN, Medical Science Liaison, Grifols, Inc. USA

Provided by: SolutionSight, Inc.

## ***Program Goal:***

Human immunoglobulin prepared for intravenous administration (IVIG) has a number of important uses in the treatment of disease. This presentation will review the basic actions of the immune system. We will review the use of IVIG as replacement therapy and as Immunomodulating therapy. The discussion will address the mechanism of action, dosing and tolerability.

## ***Program Learning Objectives:***

***In this knowledge-based program you will learn to:***

- Describe the body's Immune response
- Identify the use and mechanism of action for IVIG
- Understand IVIG adverse event classification
- Become familiar with mode of administration and dosing
