Health-System Pharmacists and Pharmacy Technicians

REGISTRATION INFORMATION

Registration deadline is September 30, 2015. There is no fee for ICHP members to attend this activity. Non-members who would like to earn CPE credit will be charged \$20. There is no fee for non-members who do not want to earn CPE credit. Non-members who do not want to earn CPE credit should call the ICHP office at 815-227-9292 to register. When registering, there will be a place to enter your NABP e-profile ID#.

LEARNING OBJECTIVES FOR PHARMACISTS

1. Identify appropriate and inappropriate use of Novel Oral Anticoagulant (NOAC) given a patient case.
2. Create an appropriate initial anticoagulation regimen with a NOAC for a patient presenting with a new need for anticoagulation.
3. Apply the current NOAC literature to a patient with valvular disease needing anticoagulation.
4. Design the correct dosing regimen for a NOAC based on indication and patient specific parameters for a given patient.
5. Assess the meaning of anticoagulation assays for a patient on NOAC.

LEARNING OBJECTIVES FOR PHARMACY TECHNICIANS

1. Identify Novel Oral Anticoagulant (NOAC) agents by brand and generic name.
2. Identify agents and indications when NOAC regimens would be expected to change, given a patient case.
3. Select NOAC agents that must be stored under special conditions and which conditions are acceptable.
4. Demonstrate the ability to recognize potential duplication in anticoagulation regimens.

This program is co-sponsored by the Illinois Council of Health-System Pharmacists (ICHP). The Illinois Council of Health-System Pharmacists is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. This program is equivalent to 1.0 contact hours (0.1 CEUs) of pharmacy continuing education.

ACPE Universal Activity Number: 0121-0000-15-035-L01-P

Type of Activity: Application-based

0121-0000-15-035-L01-T

NEW - PTCB now requires CPhTs to earn only pharmacy technician-specific ("T-specific") credit to qualify for recertification. However, any Pharmacist or P-specific credit earned by technicians in 2014 will still be accepted for those recertifying in 2015. As of January 1, 2015, ALL CPE credit earned must be T-specific. In addition, PTCB will reduce the number of allowable CPE hours earned through in-service training from 10 to 5. Please advise all pharmacy technicians at your site of this change.

FACULTY DISCLOSURE: It is the policy of ICHP to ensure balance, independence, objectivity, and scientific rigor in all of its education programs. In accordance with this policy, faculty must disclose to the participants any significant relationships with commercial companies whose products or devices may be mentioned in faculty presentations, or with the commercial supporter of these continuing pharmacy education programs. These disclosures will be available at the program.
