

Instructions for Completing Live Program Evaluations ONLINE and Downloading Statements of Participation Credit

Program Location: Sun Valley, Idaho Date: September 24, 2010

You MUST complete your evaluation submissions by October 12, 2010.

All evaluations and statements of participation credit are being completed online at HealthSystemCE.org, the online website designed to meet the educational needs of health-system pharmacists and pharmacy technicians.

Some state societies already provide membership and access to the CE programming on the HealthSystemCE.org website. Please use your established username and password to access the programs, and then follow the directions below on selecting the specific Hyponatremia programs for your time and location.

Non-members

Those who pre-registered may have immediate access to the online system following the meeting. Your email address was provided to HSCE.org and you received an email with your password. If you did not receive this email or do not remember your new password, go to the website and fill in your email username and select 'forgot password' – the system will send you a new password. On-site registrants who are currently NON-members of an affiliated state society will need to **wait three business days after the event** before they will be able to access the online evaluation process. Your information will be added to the online database after the meeting for access.
