ICHP Mission Statement

Advancing Excellence in Pharmacy

ICHP Vision Statement

ICHP dedicates itself to achieving a vision of pharmacy practice where:

- Pharmacists are universally recognized as health care professionals and essential providers of health care services.
- Patients are aware of the training, skills, and abilities of a pharmacist and the fundamental role that pharmacists play in optimizing medication therapy.
- Formally educated, appropriately trained, and PTCB certified pharmacy technicians manage the medication distribution process with appropriate pharmacist oversight.
- Pharmacists improve patient care and medication safety through the development of effective public policies by interacting and collaborating with patients, other health care professionals and their respective professional societies, government agencies, employers and other concerned parties.
- Evidence-based practices are used to achieve safe and effective medication therapies.
- There are an adequate number of qualified pharmacy leaders within the pharmacy profession.
- Pharmacists take primary responsibility for educating pharmacy technicians, pharmacy students, pharmacist peers, other health professionals, and patients about appropriate medication use.

***KeePosted* Vision**

As an integral publication of the Illinois Council of Health-System Pharmacists,

the *KeePosted* newsjournal will reflect its mission and goals. In conjunction with those goals, *KeePosted* will provide timely information that meets the changing professional and personal needs of Illinois pharmacists and technicians, and maintain high publication standards.

KeePosted is an official publication of, and is copyrighted by, the Illinois Council of Health-System Pharmacists (ICHP). *KeePosted* is published 10 times a year. ICHP members received *KeePosted* as a member benefit.
