Pharmacy | tech topics™

by Illinois Council of Health-System Pharmacists

Pharmacy Tech Topics™ is a subscription service that provides certified pharmacy technicians with four modules of home-study continuing pharmacy education (CPE) each year. Upon successful completion of each module's post-test (70% or better), 2.5 contact hours of ACPE accredited continuing pharmacy education credit will be awarded. This continuing pharmacy education credit meets the requirements of the Pharmacy Technician Certification Board (PTCB).

DESIGNED SPECIFICALLY FOR THE CERTIFIED PHARMACY TECHNICIAN!

A two-year Pharmacy Tech Topics™ subscription fulfills all of PTCB's recertification requirements (twenty contact hours of technician-specific CPE, including law and patient safety credit)! Each Pharmacy Tech Topics™ module contains written continuing pharmacy education with learning objectives, references, a post-test, and an educational evaluation form. We automatically report your credit hours to CPE Monitor for each successfully completed module.

Pharmacy Tech Topics™ modules are authored by leading experts in their field, and address the latest disease management and operational issues. **Module topics are based on subscriber input.** The Pharmacy Tech Topics™ Steering Committee uses your suggestions to develop future modules. On the right is a tentative order of release for the 2021 Pharmacy Tech Topics™ modules. **Variations in programming may occur.**

All print and online subscribers who take the post-test online must complete a 5-question PRE-TEST before accessing the module, post-test and evaluation. This is for outcomes analysis only and has no impact on your grade or credit.

WHAT OUR SUBSCRIBERS ARE SAYING...

"Great Topics"

"My copy comes regularly in the mail. I can complete it when I'm ready. I keep them for future reference and read them again."

"I look forward to reading and taking the evaluation at my own pace and in the quiet of my own home."

"Facts were presented and simply conveyed in a professional manner."

"This Topic was thoroughly presented, covering many of the 'areas of growth' in the pharmacy profession."

"Very informative in explaining medications and how they are used together for treatment."

"It was a good refresher for me!"

"Pharmacy Tech Topics has enlightened and enhanced my knowledge, they are very useful, beneficial and relevant."

2018, 2019 & 2020 MODULES ARE STILL AVAILABLE!
